

Ship Horn Large Special Effects
(Spezialeffekte-Gross)
for LSH3 Edition 2020

_LSH3-2020_SLS_SpecialEffectsBig

Foreword

Dear Captains,

Add-on mod: For Computers with higher performance! **_LSH3-2020_SLS_SpecialEffectsBig**

This mod activates even heavier explosions, more dense smoke and more debris flying around. You can hear smaller explosions in between.

Sequence of Activation

During the development of LSH3 2014 we decided to integrate the former separately available MOD **_LSH3_v5_SLS_Schiffshorn-Leuchtkugeln-Seenotsignal** into **_LSH3-2020__FULLVERSION**.

The same happened to the MOD **_LSH3_v5.1_SLS_Sinkverhalten-SH3**.

So those two MODs are no longer available seperately.

This MOD may be activated after **_LSH3-2020__FULLVERSION**.
